Safety, Quality, Performance

Flexi-Lite 1.6

- ◆ 34 in. / 87cm dia x 108 in / 275 cm length has room for 2 persons.
- ◆ 45 lbs / 20 Kg makes this chamber easily transportable.
- ◆ Urethane-coated nylon, 2 layer / double bag construction provides incredible strength and is almost chemically inert.
- ◆ Unique Nylon Harness & Stainless Steel Buckle system makes this the strongest chamber of its kind in the world. Tested to over 40 psi. Not FDA-approved for pressures above 4 psi.
- ◆ Features 4 double-pane polycarbonate windows and a 65in. Zipper opening for easy entry.
- ◆ 8 internal and 8 external ports allow for upgrades and accessories.
- ◆ High quality brass fittings - no plastic. 5in./13cm high accuracy Magnahelic pressure gauge. Custom-designed noise mufflers and over-sized valves offer a quieter chamber experience.
- ◆ Custom designed FDA-approved breathing air compressor provides quiet, efficient inflation. 2 stage replaceable cartridge filtration. Available for 110v or 220v service.
- ◆ Heavy duty 7/8 in 2 cm support frame is constructed from aluminum alloy. Strong but light weight.
- ◆ Medical grade foam mattress with a washable cover and anti-roll bolsters are included for comfort and convenience.

Built with Pride in the USA
